The population of France is now
36,624,000. Ten years ago it was
35,468,000, and the difference is dis-
counted for by the war. France suf-
fered terribly without doubt, and they
are entitled to full reparation on the
part of Germany.

Even the man in the moon ap-
peared full on Sunday and Monday even-
ings last. Still for all that this pro-
vince is dry and the ill-devised pro-
hibition is working splendidly, thanks
to the efforts of the attorney-general's
department.

CHRISTOPHERS ELECTED WITH 198 MAJORITY OVER STEWARTITE

The result of Monday's election in
the Rocky Mountain constituency was
a real surprise, the victors having
fallen to the lot of P. M. Christo-
phers, who was backed by sound
organization against A. M. Ste-
wart, of Coleman, for the Stewart
government, and Major Wallace
Sharpe, of Lundbreck, Independent
Farmer candidate.

Our new M. E. successor Robert E.
Campbell, of Rocky Mountain House,
Christophers may well be termed a
self-made man, and because of his
untiring energies in the interests of
labor during the past few years, little
doubt as to his fitness for the task.
He is a man probably better
fitted than any other man in his
Mountains to represent us in the Al-
berta house, having considerable
knowledge of mining and farming
and the needs of our cosmopolitan
population.

Already, Phil has been slated local-
ly as coming minister of mines for
Alberta.

The opposition candidates join with
in extending to Mr. Christophers
congratulations.

REBEKAH OFFICERS INSTALLED

At the regular meeting of the Ray
of Hope Lodge at Bellevue on Tues-
day night, the 19th instant, the of-
ficers for the ensuing term were in-
stalled by Sister Mrs. Hallworth, D.
D.G.P., assisted by a staff of past
noble grand.

Following were the officers instal-
led:

J.P.N.G.—Sister Bradley.
N.G.—Sister Prescott.
V.G.—Sister Christie.
P.S.—Sister Blake.
F.S.—Sister Litherland.
Treasurer—Sister Goodwin.
R.S.N.G.—Sister Patterson.
I.S.N.G.—Sister Fisher.
R.S.V.G.—Sister McCulloch.
I.S.V.G.—Sister Collins.
Chaplain—Sister Dryden.
Warden—Sister Patterson.
Conductor—Sister Elder.
Inside Guard—Sister Boyd.
Outside Guard—Bro. Jack Christie.
Pianist—Sister Knowles.
Following the meeting, refresh-
ments were served, coupled with a
short programme of addresses, etc.,
ending on with a light tria of the
light fairs. About 100 hundred
members of this branch of the Order
were present.
Reports for the term just ended
were very gratifying.

BLAIRMORE REBEKAHS INSTALLED

The officers for the ensuing term
of Crowview Rebekah Lodge, L.O.O.F.
were installed at a special meeting
held on Tuesday evening of this
week.

The installing officer was Sister
Hallworth, D.D.G.P., of Bellevue, ably
assisted by a number of past noble
grands of Ray of Hope and Crow-
view Lodges.

About thirty Rebekahs from Bel-
levue accompanied the district deputy.

The officers for the ensuing term
are:

J.P.N.G.—Sister Katie Archer.
N.G.—Sister Jessie McVey.
V.G.—Sister Patterson.
Secretary—Sister Randall.
P. Secretary—Sister Fraser.
Treasurer—Sister Mrs. Archer.
Warden—Sister Joyce.
Conductor—Sister Hamilton.
Chaplain—Sister Davis.
R.S.N.G.—Sister Warner.
I.S.N.G.—Sister Hamilton.
R.S.V.G.—Sister Evans.
I.S.V.G.—Sister Hinds.
Inside Guard—Sister Pinkney.
Outside Guard—Bro. Montalbetti.
Following the installation, Lodge
closed at 8.30, when the ladies re-
paired to an adjoining kitchen to
prepare luncheon. In the meantime
the regular meeting of Blairmore
Subordinate L.O.O.F. Lodge was held,
when the elective officers of Coleman
Lodge No. 35 and Blairmore Lodge
No. 68 for the ensuing term were
duly installed by D.D.G.M. Percy
Burles, P. G. of Cowley, assisted by
Past Grandis Risson, Moore, Hunter,
Fraser, McLeod and A. Hallworth, as
follows: Blairmore 68
A. McCulloch—J.P.G.—E. Eckmier
J. Derbyshire. N.G.—Wm. Patterson

BIG SYNDICATE PROJECTED RE ALBERTA'S COAL

For the purpose of developing Al-
berta's coal, a plan has been laid be-
hind a powerful group of finan-
cial interests in England, and a syn-
dicate is now being formed, with Sir
Edward Meade, former premier of
Newfoundland, as chairman. This
was the word received on Monday
morning by Mayor Adams at the city
hall, in a letter written to him on the
subject by J. Handley Yates, who has
just returned from England, where he
has been attending the Royal Colonial
Institute on "Canadian Natural Re-
sources and pleaded for their de-
velopment.

In his communication to the mayor
Mr. Yates says: "This syndicate pro-
poses to acquire a coal mine, to in-
stall upon it the briquette process of
Herbert Alexander, who is an
expert on briquette making in the world,
and demonstrate, in a practical way,
how very profitable the process is. If
our expectations are fully realized
this mine will be, by the time it
develops a company with large capital
to develop the property on a much
larger scale."

"I hope to be in Alberta shortly for
the purpose of selecting a property
suitable for our purpose."—Calgary
Herald.

CHURCH OF ENGLAND SERVICES

Sunday, July 24th.

11 a.m.—Sunday School.

7 p.m.—Evening.

Blairmore

11 a.m.—Matins.

2.30 p.m.—Sunday School.

The picnic given in West Blair-
more's natural park on Sunday even-
ing last in the interests of the Ste-
wart administration was the biggest
affair of its kind ever held in the
southern part of this province. Lib-
eral would be about the best term to
use to describe the affair, for with
the utmost of liberality was the sup-
ply of soft drinks, ice cream, sand-
wiches, etc., administered to the two
thousand mouths that presented
themselves for satisfying. An idea
of the amount of goods handed out
absolutely free to everyone may be
gathered from the fact that over
three hundred pounds of ice cream
were served in cones, fifty-four hun-
dred sandwiches and eighteen hun-
dred pounds of soft drinks were
served. The picnic was managed by
Empire Pick was managed in chief
and was assisted by about eighty ex-
perienced and unexperienced cheer-
ing hostesses. Everyone had to
bring their own mug, and goah, if
Bob Edwards had been there he would
certainly have admitted that the ma-
jority of Blairmore's natural mouth
would make ideal camping grounds
for illipitians. The Blairmore band
was in attendance in full strength,
under the able guidance of band-
master Kotze, and rendered popular
music throughout the entire even-
ing. Social parties were held under
three large trees and in shade woods,
where they were given a contract to
destroy a pile of good things. Fol-
lowing the picnic repairs made to
the opera house, where the Labor
Bally was being held in the interest
of Candidate Christophers.

Those who attended the opera
house on Sunday afternoon to hear
the Calgary Salvation Army band
were well repaid for the time spent.
The music and singing were a treat
that will long be remembered, and
it is earnestly hoped by everyone
that the time is not far distant when
a return visit will be accorded us.

The Lethbridge annual fair is on
this week, commencing yesterday.

F. Stokes—V.G.—Jack Patterson
W. Andrews—Sec.—W.T. Patterson
McLean—Pins.—J. Montalbetti
J. Beart—Treas.—J. Montalbetti
The appointive officers will be in-
stalled at the next regular meeting
of the above lodges.

Following the close of the meeting,
tables were spread and luncheon
was served by the members of Crowview
Rebekah Lodge. About sixty mem-
bers of the Order were present. A
programme of speeches arranged by
Chairman W. H. Chappell brought
the evening's doings to a close.

We can tell the good and the
poor Coffee. If you want a real
good Coffee, try a pound of OUR
OWN BRAND, and you will be
convinced that we tell you the
truth. Only 50 cents per package.

We also have a very good roast
Coffee that we can offer to you at
three pounds for \$1.00. Try three
pounds of this.

We have a shipment of Fresh Biscuits offering at 30c lb. Try these
and you will find them just as good as any high-priced Biscuits.
These Warm Days you will want a bottle of Citrate of Magnesia. It
is medicinal and refreshing and is the most healthful drink on hot
days—large bottle \$1.25.

Welch's Grape Juice and Limejuice and Lemonade Powder make good
drinks for the warm weather.
Don't forget, we carry a full line of GROCERIES and FRESH FRUIT
at very reasonable prices.

World Happenings Briefly Told

The famous pipe of peace of the Indian chief, Sitting Bull, has been presented to the South Dakota State Historical Society.

A half billion candlepower searchlight, whose rays can be seen 70 miles away, is being installed on Mt. Tamalpais, near San Francisco.

A large number of Armenian children are suffering from heart disease due to the fear they have been living in.

The Prince of Wales has declined all public engagements during August and September in order to obtain a much-needed rest before his visit to India.

There has been practically no rain in the south of England for two months, and the highest temperatures for the past 40 years have been recorded for June and July.

The Allied Supreme Council probably will meet toward the end of this month, either in Boulogne or in Paris, it was announced by the French foreign office.

The Pacific Cable Board is reinstating the deferred press service between England, Canada and Australia, which was discontinued during the war.

Forty-one wells are now being sunk in Alberta in search of oil and these will be considerably increased as soon as the necessary equipment can be secured.

Forest fires in Quebec are now under control, according to G. C. Piché, chief forester. "The extent of the damage has been greatly exaggerated," Mr. Piché said.

A fire which broke out in the Blouin and Voss Shipyards at Hamburg caused damage amounting to many millions of marks. The timber sheds with great quantities of building material were destroyed.

Lieut. W. H. Brown, of the Jericho Beach station of the Canadian Air Force, and Norman A. Goddard, of Victoria, narrowly escaped injury when a Curtiss seaplane, piloted by Brown, fell into English Bay during a trial flight.

The thirteen-ton yawl-rigged cruiser yacht, Neith, owned and commanded by Lieut.-Com. Sydney C. Houghton, R.N.V.R., sailed from Halifax, where she was laid up for the winter.

YOUNG WOMEN AVOID PAIN

This One Tells How She Was Benefited by Taking Lydia E. Pinkham's Vegetable Compound.

Regina, Sask.—"For two years I suffered from periodic pains and nausea so I was unable to get around. My mother had me take Lydia E. Pinkham's Vegetable Compound, and I am much better and able to go about all the time, which I could not do before. I recommend Vegetable Compound to my friends. If I know they're suffering the same way, and you may publish my letter if it will help any one, as I hope it will."—Miss Z. G. Macowatz, 2075 Oxford Place, Regina, Sask.

If every girl who suffers as Miss Blackwell did, or from irregularities, painful periods, backache, headache, or any other ailment, would take Lydia E. Pinkham's Vegetable Compound, it would relieve her of all her troubles.

It is hardly some possible that there is a woman in this country who will continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. After all the evidence that is continually being published, proving beyond contradiction that this grand old medicine has relieved more suffering among women than any other medicine in the world.

For special advice women are asked to write the Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of forty years experience is at your service.

Record Parachute Drop For Women

Eighteen-Year-Old Girl Says Experience Was Terrible.

Miss Phyllis J. Fairgrave, 18 years old, of St. Paul, Minn., established what was said to be a new world's record for a parachute drop for women, when she dropped 15,200 feet from an airplane at Curtiss Flying Field. The previous record was said to have been 11,000 feet, held by Miss Mabel Cody, set at Chicago last February. The altitude was recorded by an altimeter, according to Paul Goldsborough, of the Aero Club of Minneapolis who, with V. C. Omile, pilot, went up in the plane with Miss Fairgrave.

It took exactly 20 minutes from the time Miss Fairgrave leaped until she alighted safely in a wheat field near New Brighton.

"It was terrible," said Miss Fairgrave later. "I never want to try it again."

The Origin of Gail Stories

They are simply dried bile made up of crystalline constituents of this disease. Very common is this disease among merchants, clergy, shop girls, and those of sedentary habits. Prevention consists in maintaining correct action of the liver and bowels, and this is speedily accomplished by using Dr. Hamilton's Pills. No person using Dr. Hamilton's Pills will be subject to bilious fits. Sound digestion, good appetite, a clear color will evidence the healthful progress of Dr. Hamilton's Pills which are safest and best for general family use. When a lady is asked when she feels out of sorts, that's the time to use Dr. Hamilton's Pills of Mandrake and Butternut. 25c all dealers or The Catarhose Co., Montreal.

Export of Grain.

In the seven fiscal years, 1915 to 1923, the total exports of grain from Canada amounted to 1,126,647,772 bushels, of which 818,696,828 were wheat. Of the total grain fifteen per cent. went to the United States and thirteen per cent. of the wheat was consigned to the same country.

Hall's Catarrh Medicine

Those who are in "run down" condition will notice that Catarrh bothers them much more than when they are in good health. The fact proves that while Catarrh is a local disease, it is a general one in its conditions. HALL'S CATARRH MEDICINE is a powerful medicine that acts through the blood upon the system, removing and restoring general conditions. F. J. Cheney & Co., Toledo, Ohio.

Plan Your Vacation Trip

Special Summer Tourist Fares to the Pacific Coast.

Special Summer Tourist tickets to Vancouver, Victoria, Seattle and other Pacific Coast points are now on sale daily by the Canadian Pacific Railway. These tickets will bear a final return limit until October 31st, and permit stopovers en route, which gives travellers an opportunity of visiting some of the beautiful resorts in the Rockies, such as Banff, Lake Louise and Glacier, where the Company maintains splendid resort hotels. These tickets are optional via the main line or Arrow Lakes route in one or both directions without extra charge. No expensive side trips necessary.

In addition to the "Trans-Canada Limited" exclusive sleeping car train a choice of two other daily trains is offered, and as all are equipped with open-top observation cars through the mountains an excellent view of the magnificent scenery may be had.

Any Agent of the Canadian Pacific will be pleased to give further particulars and make the necessary arrangements for the trip.

Not Far to Go.

Exasperated Husband.—If you don't stop your nagging I'll go crazy in a minute.
Sarcastic Spouse.—You could make it, all right and not exceed the speed limit, either.

Spend your money at home, thereby helping your own town and local merchants.

Always Ready and Reliable.—Practically all points arising from inflammation can be removed with Dr. Thomas' Electric Oil. Simply rub on the sore spot and the inflammation is absorbed by the skin. Its healing power is conveyed to the inflamed tissue which is quickly soothed. This fine old remedy is also a specific for all manner of cuts, scratches, bruises and sprains. Keep a bottle handy always.

The New Idea.

Uncle Timmed.—I'm going to pull up at this watering trough as I give the old nag a drink.

Sammy Sittled.—Does his radiator need filling, uncle?

The various currents in the North Sea are now being tracked by means of sealed bottles.

Minard's Liniment for Drums

Cuticura Girls Are Sweet and Dainty

Nothing so lovable as healthy, clear complexion, soft, white skin. Cuticura Soap, mild and delicate, cleanses the skin, removes all impurities, and leaves the skin soft and smooth. Cuticura Soap is delicate, delicate, delicate. It imparts to the skin a charm incomparable and peculiar to itself.

See Dr. O'Connell 25 and 26, Talmage St., Scott Street, Montreal, Quebec, Canada. Cuticura Soap, 25c. Cuticura Soap, 25c. Cuticura Soap, 25c.

English Lake Disappears

Vanishes in a Night—Down Old Colliery Shaft.

The lake in the park at Burnham, the "Burnley" of Arnold Bennett's "Five Towns," vanished in a night. The water disappeared through an old colliery air shaft, and nothing now remains but a sea of mud.

The property in the neighborhood of the park is now in a condition which is positively dangerous owing to recent mining subsidence. Great cracks have appeared in the walls and roof of the town hall, and a staff of workmen are endeavoring to repair the damage.

The Druggists All Agree That "Putnam's" Is Best

The oldest corn remover on the market is Putnam's Corn Extractor, and it is the best. Your corns will all drop out after a few treatments with this painless remedy. Failure impossible. Refuse a substitute for "Putnam's," 25c everywhere.

Impolite Pedestrian.

A taxi-driver who knocked a man down in Gracechurch Street has summoned him for using abusive language. It seems a pity that pedestrians cannot be knocked down without showing their temper like this. Punch (London).

THE HEALTHY MAN HAS THE BEST CHANCE

Is Always Full of Life and Energy—Failures Are Weak and Bloodless.

Some men seem to have all the luck. If there are any good things going these men seem to get them. If they are business men they are successful; if they are workmen they get the foreman's job. They have the power of influencing people.

The same is true of women. Some have the charm that makes men seek them out; others are neglected. But this is not luck. It is due to a personal gift—vitality. Men and women of this sort are never weak, puny, invalids. They may not be big, but they are full of life and energy.

The whole thing is a matter of good blood, good nerves and good health. Every-one would wish to be like this and the qualities that make for vitality and energy are purely a matter of health. By building up the blood and nerves, sleeplessness, want of energy, weakness of the back, headaches and the ineffectual sort of presence which really comes from weakness can be got rid of. Dr. Williams' Pink Pills have made many weak, tired men, vigorous, and many pale dejected girls strong, rosy and attractive, by improving their blood and toning up their nerves. If you are weak, low-spirited, unhealthy, try Dr. Williams' Pink Pills and note their beneficial effect.

You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Cheap Lemons and Dear Lemonade.

In California lemons are so cheap that lemonade is being cut down by fruit growers to enable the latter to plant fruit trees of other kinds. The lemons are being carried away like rubbish—as they cannot be used for fertilizing purposes owing to acidity of the fruits they contain. The cause of this is the cheap, imported lemon from Italy. Thus the Italians are handing a lemon to American fruit growing interests and there is much dissatisfaction. At the same time, the ultimate consumer of lemonade is paying a high price for his summer drink.—U.S. Exchange.

A town cannot grow without business.—By helping your local dealer you assist the community.

SUN WIND DUST & CINDERS
RECOMMENDED BY DR. DUFFY'S OFFICIAL MEDICINE FOR THE EYE BOOK—THE CO. CHICAGO

Your Teeth

By Rea Proctor McGee, M.D., D.D.S., Editor of Oral Hygiene.

DECAY OF WOMEN'S TEETH

Copyright, 1921, by Rea Proctor McGee.

At least sixty per cent. of a dentist's patients are women. The other forty per cent. are men and children.

There are two reasons for this; one is that women more frequently consult the dentist because they are more careful of their health and appearance and the other is that women's teeth actually are more subject to decay than men's.

The teeth of women are of the same structure as are the teeth of men and are expected to perform the same work but they usually do not get the chance because women do not eat foods that require as much vigorous chewing as those that men select.

One of the duties of the great majority of women is either to prepare or supervise the preparation of food for the household. The element of surprise in what the next meal has in store is absent and the inhalation of the odors of cooking food takes what little "edge" there is left to the appetite. In addition, the preparation of food requires more or less frequent tasting of savory mixtures.

Women as a rule are satisfied to eat the softer and more highly flavored foods and sweetened desserts.

As a result their teeth do not get the vigorous exercise that men's teeth do.

This lack of vigorous chewing allows the mucus of the saliva to stick to the teeth and the debris of soft food packs between and around the teeth.

Unless the teeth are most carefully cleaned with the brush at least twice each day and in addition are given a prophylactic treatment by the dentist occasionally, food and mucus will be allowed to form an ideal soil for the growth of the bacteria of decay.

Where there is decomposition of food, organic acids are formed that attack the enamel of the teeth and make the work of the bacteria very easy. As the teeth decay, the packing of food becomes more extensive and the gums are inflamed and bleed easily.

Any inflammation of the gums tends toward the establishment of that great of all enemies of the teeth—pyorrhea.

Death of Famous Aviator

Was First to Essay Flight Over Atlantic in Airplane.

Harry G. Hawker, the first aviator to essay a flight over the Atlantic in an airplane, met a terrible death while flying over the Hendon field. The machine was seen descending in flames, and Hawker's body was found two hundred yards from the spot where the airplane fell. It was badly mutilated, both by fire and the fall.

One foot was severed, and both legs were broken.

Hawker made the start of his memorable voyage across the Atlantic from St. John's, Newfoundland, on May 18, 1920. He was accompanied by Lieut.-Commander MacKenzie Grieve as navigator. The intrepid voyagers were missing for six days, and were virtually given up for lost, when word was flashed that the little Danish steamer, Mary, bound from New Orleans and Norfolk for a Danish port, had picked the wayfarers up. They had been forced to alight on the water about 1,050 miles out from Newfoundland, and 850 from the Irish coast.

Russian MSS. Available

Intellectual Exile of Russia is Soon to End.

Moscow's seven years of intellectual isolation is about to be broken according to the Soviet Foreign Office which expresses its willingness to use its efforts to help further the exchange of scientific literature between Russia, Europe and America. During the last few years only a few scientific works have been printed, but a large number of manuscripts have been collected under the Soviet regime.

A delegate of one of Finnish commissions for the distribution of food in Petrograd stated that the libraries there are generally well preserved, but the big general library at Petrograd had its stocks depleted in 1915 when, after the German conquest of Lihau, 25,000 valuable books were carried away and deposited in an unknown place.

All attempts to trace them have failed.

Patronize your local merchant and thereby help to build up your home town and community.

Gorgeous Colors In This Tea Gown

By Marie Belmont.

The union of exquisite materials and the combination of most wonderful colors are two of the reasons for the favor shown to the newest tea gowns. Over a foundation of lemon satin, panels of rust color velvet fall from the shoulders. These are edged with silver galleon. Wing-like sleeves that descend in cascade style introduce lettuce green chiffon. These are bordered with scintillating beads and their sharply cut facets reveal the glowing colors of the ruby, emerald and diamond. A piece of the silver galleon binds the hair and above each ear fall pendants of the various colored beads that bedeck the sleeves.

There is nothing repulsive in Miller's Worm Powders, and they are as pleasant to take as sugar, so that few children will refuse them. In some cases they cause vomiting through their action in an unsmooth stomach, but this is only a manifestation of their cleansing power, no indication that they are hurtful. They can be thoroughly depended upon to clear worms from the system.

Ice Capped Summits Of The Rockies

Traveller Affirms That The World's Biggest Show Is In Canada.

The most widely travelled globe-trotter living affirms that the greatest feat of Nature on this earth is the panorama of the Canadian Rockies, and that the greatest engineering achievement in the world is the Canadian Pacific Railway's passage of those mountains by means of a series of spiral tunnels which have reduced the original grade of 45 to less than half.

Thousands of men and women travel from the remotest corners of the globe to see this staggering upheaval of Nature; to gaze on its endless line of ice-capped summits piercing the clouds; upon its gorgeous coloring and shadowgraphs and to drink in its amazing atmosphere.

And yet ninety per cent. of the citizens of Canada have never seen this, their own show of surpassing grandeur and magnitude, which they could see and live with at home, spending less than they might on a week's trip to Chicago or New York, and come home wiser and better men and women. How is it done? A post card to any Canadian Pacific Agent will bring you the surprise of your life.

ASPIRIN

"Bayer" is only Genuine

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin at all. The name "Bayer" is the only one that is a guarantee of purity and effectiveness for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and all Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell large packages. Made in Canada. Aspirin is the Trade Mark (registered in Canada), of Bayer Manufacturing or Monocetate of Salicylic Acid.

France Is Angry. France has informed Germany she will continue the occupation of the Soviet regime. Germany has complied with the conditions of the treaty of Versailles relative to the punishment of those who violated the rules of civilized warfare in the world war. Premier Briand told the senate. Replying to a question, he characterized the findings of the Leipzig court as scandalous.

The Greatest Menace. There is not a menace in the world today like that of growing public indebtedness and mounting public expenditures.—President Harding.

FRESH DAILY

J. L. LONSBURY, VETERAN BAKERY

COLEMAN,

ALBERTA

A very interesting conversation was overheard by a little Blainmore girl the other night. Her elder sister and her beau were discussing their kith and kin; and, as the little girl relates, he asked her for a kith and she said "you kin".

The captain of the Ladies' Golf Club has announced an 18-hole competition to be played any time before July 30th. Will those who wish to enter get their cards from the secretary as once make their own arrangements for partners and hand in their cards by July 30th.

NOTICE

IN THE ESTATE OF ANGUS MCCORMICK, late of COLEMAN, in the Province of Alberta, deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named Angus McCormick, who died on the 20th day of April, 1921, are required to file with John J. Petrie, Barrister, 322a Eighth Avenue West, Calgary, Alberta, by the 31st day of August, 1921, a full statement duly verified of their claims and of any securities held by them, and that after that date the Administrator will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been filed, or which have been brought to his knowledge.

DATED this 16th day of July, 1921.

JOHN J. PETRIE,
Solicitor for the Administrator,
322a Eighth Avenue West,
Calgary, Alberta.

IN THE MATTER OF THE ESTATE OF GIACOMO RIVERO, late of the Town of Corbin, in the Province of British Columbia, miner, deceased.

NOTICE TO CREDITORS AND CLAIMANTS.

NOTICE IS HEREBY GIVEN that all persons having claims upon the Estate of the late Giacomo Rivero, who died on or about the 26th day of November, 1918, at Corbin, British Columbia, intestate, are required to forward to J. E. Gillis, of the Town of Blainmore, in the Province of Alberta, the undersigned solicitor for the Administrator, Paolo Barattoli, on or before the 25th day of August, 1921, a full statement of their claims duly verified and any securities held by them, and that after that date the Administrator will distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or brought to his notice.

DATED this 14th day of July, A.D. 1921.

J. E. GILLIS,
Solicitor for the Administrator,
Blainmore, Alberta

Archie McLeod, mayor, has been reappointed commissioner for oaths.

SIDEGLITS ON THE ELECTION

(As Viewed by the Ordinary Thinker)

The axe is falling, but the mayor of Blainmore takes the initiative. The rouser attack will no doubt be, and can be made interesting.

The election on the 18th and the suspension of James Carter, ten-poles, on the 18th, no doubt backed by a small element of the council, leads one to form only one conclusion, and that conclusion has been arrived at.

The saving is that a new broom sweeps clean. The new government will also sweep clean.

The suggestion made that the entire council be asked to resign and go to the ratepayers is a good one. There never was greater need for a clean up and reform and some of the present material may crow for election.

The town council will be interesting. Ratepayers will make it so.

—

The remarkable success attending the development of the Alberta College North, at Edmonton, is a matter of pride to those who have watched its growth since the organization of the College in 1903. During the eighteen intervening years over 15,000 students have received instruction in various branches of higher education. During the past year approximately 1,900 were on the roll, and the average attendance for the past seven years has more than doubled, this being the largest attendance of any college in Canada where similar work is being done.

While the mental culture of its students is of course an essential consideration, very strong emphasis is placed on the development of true character, and the importance of positive Christian influences. The college is un denominational, the students being allowed to attend the church to which they or their families are affiliated. Residential accommodation is provided for both sexes, with adequate supervision by college officials, without unnecessary and burdensome restrictions. Nothing is overlooked in the desire to maintain a refined and healthful atmosphere. Suitable provision is made in cases of illness. Every student is encouraged to take part in some branch of physical culture, and ample athletic facilities are provided. The school year begins on Sept. 1st, and extends to June 30th.

SEVEN-EIGHTHS OF OUR GLOBE IS COVERED BY WATER

If all the mountains and smaller elevations on the earth were removed and the material were used to fill in the hollows, we would have a globe smooth as a billiard ball and completely surrounded by an ocean 8,700 feet deep.

The hydrographic office of the navy says that the ocean is about 100 million years old. In other words, that length of time has passed since the vapors suspended about the territorial sphere became condensed water and were gathered to form the "seven seas."

A trifle more than seven-eighths of the surface of the globe is covered by water of the ocean. The total area covered by the latter exceeds the combined area of all the lands in the world by 53 million square miles.

Reckoned in terms of quantity, the ocean contains 224 cubic miles of fluid, or fourteen times the bulk of all the lands in the world above sea level. The greatest depth thus far discovered is a trifle less than six miles and a quarter, and is found east of the island of Mindanao, in the Philippines.

The water of the ocean contains a little over two and one-seventeenth per cent of common salt. In addition, it holds in solution a bit more than one-half of one per cent of magnesium salts, somewhat more than one-tenth of one per cent of salts of calcium, and nearly one-tenth of one per cent of sulphate of potash.

Dry air contains about 21 per cent of oxygen, but air extracted from water contains 34 per cent. The gas of the atmosphere are everywhere contained in sea water, being taken up and dissolved by the latter. The oxygen is required to maintain the life of fishes and other marine animals. If it were not being constantly dissolved at the surface and distributed by the general circulation of water in the ocean, there could be in the depths none of the animal life which now abounds there.

If Blainmore's talented choir, led by "C. E." would lend their services to the public on some Sunday or other evening at 7.30, instead of 8 to 8 on election morning on the new standard, where the guests of the Cosmopolitan only were annoyed by their freak efforts, all would be better satisfied (perhaps). Election fever is much to blame for the irresponsibility of certain individuals on Monday morning, and it is earnestly hoped that pillars of indecision will in future endeavor to serve their wares to individuals whose heads are not so apt to be annoyed by the contents of their stomachs.

COWLEY HAPPENINGS

James Golding, of Lethbridge, spent the week end here.

Mrs. Martha Tustian has gone to Lethbridge to visit some friends.

Sidney McCabe came down from The Pass to spend the week end with his family here.

Miss Maggie Twaddle has returned to Lethbridge after an extended visit here with friends.

H. D. MacMillan left for Edmonton on Tuesday night to attend the business meeting.

Rev. Mr. Moore, David Murphy and Donald McIvor, jun., are attending the Trail Rangers' camp at Lee Lake this week.

For the first time in the annals of Cowley, the little town was an examination centre for the Toronto College and Canadian Academy of Music, in which the thirteen pupils of Mrs. A. S. Donald obtained the following gratifying remarks: First Class Honors—Jean Morrison, and Isabel Morrison; Honors—Hilda Hanman, Helen Morrison, Margaret McIvor, David Murphy, Bruce Bouthillier and Harold Snyder; Pass—Martha Tustian, Ulidne Sleighter, Margaret Sleighter, Donald McIvor, and David Bouthillier.

A picnic under the auspices of the combined U. P. A. locals of Cowley, Lundbreck and Beaver Mines, was held at G. W. Buchanan's ranch on the South Fork on July 16th. Several of the political candidates were present. After the picnic the crowd came to Cowley to see the ball game between Cowley and the Miners. The ball game was a surprise, as the Cowley team held the visitors to a 3 to 0 score up to the sixth inning, when they blew an awful Michel started scoring, ending the game winners at 9 to 4. An enjoyable dance was held after the ball game, lasting until twelve o'clock.

NOTE OF THANKS

The officers and soldiers of Coleman Corps wish to thank the many friends of Bellevue, Hillcrest, Blaimore and Coleman through this paper, for the kind and generous way in which they rallied to their assistance in various ways in connection with the visit of the Calgary No. 1 band. The band also appreciates the kindness and express their hearty thanks for the support, trusting the visit of the Band has been a blessing to the several communities.

The Newfoundland Government Railway Commission has ceased operation, and it is stated on reliable authority, has handed over the operation of the railway and hay stevedore services to the Reid Company, the transfer being made after recommendation of Sir George Bury, who was invited by the Government to consider a railway policy. According to reports the terms of the new policy, which will be submitted to the House of Assembly, are that the Reid Company will run the railway and coastal steamers without any interference from the Government and that any losses sustained will be borne by the Government. The system of railway and steamship is again under Reid management, the arrangement it is said, to continue until June 30th of next year.

When a ship like the Empress of France has a full passenger list, she takes about 20,000 pounds of beef, 10,000 pounds of mutton, 5,000 pounds of pork, 1,500 pounds of veal, 1,000 pounds of lamb, 4 1/2 tons of ham and bacon, 2 tons of sausages, liver, etc., in addition to sundry other items too numerous to mention. Also next comes the fish as follows: 2,000 lbs. fresh cod, 1,500 lbs. fresh haddock, 500 lbs. sole, 400 lbs. of finnan haddie, 500 lbs. rounders, 500 lbs. halibut, 500 lbs. herring, 400 lbs. lake trout, 500 lbs. live lobsters, 500 lbs. sweet fish, 500 lbs. white fish; besides the above a number of other kinds are secured in season, such as black and white striped bass, blue fish, brook trout, and shad; in fact, approximately 10,000 lbs. of fish are required at Quebec, comprising over twenty varieties.

Poultry follows, and generally consists of over 1,000 lbs. of milk-fed chickens, 500 lbs. broilers, 1,500 lbs. capons, 1,500 lbs. fowl, 1,000 lbs. geese, 1,000 lbs. turkey, as well as smaller quantities of ducklings, goslings and different kinds of game.

Under the head of dairy produce 3,000 lbs. of butter are required, 1,000 lbs. of cheese and over 30,000 eggs.

About 15 tons of vegetables are needed, which include 18,000 lbs. of potatoes, 4,000 lbs. of turnips, 2,500 lbs. of carrots, 1,500 lbs. of cabbage, 1,200 lbs. of onions, 1,000 lbs. of beets.

The principal fruits are as follows: 30,000 oranges, 20,000 apples, 3,000 grape-fruit, 6,000 lemons, 1,000 lbs. of bananas, besides the smaller kinds of fresh fruit in season.

The grocery list is enormous, and could not be itemized here. Dried fruits run into several thousand pounds; biscuits 13 tons, 13 tons flour, 4 tons sugar, 1 ton oatmeal, 1 ton peas, 500 gallons milk, 500 gallons evaporated milk, 500 pints ice cream and a large quantity of cream.

NOTICE

NOTICE IS HEREBY GIVEN that the undersigned has purchased the interest of Leon Tong, in the property, Lot 2, Block 29, Plan 2555—A.A. Blaimore, and that parties having claims against the said Leon Tong or indebted to same, will please make settlement with the undersigned before July 25th, 1921.

Dated at Blaimore, Alberta this 7th day of July, 1921.

Present Economic Waste

Why do prices of merchandise and commodities of all kinds remain so abnormally high despite the fact that the war demand is long since past and production in almost every line has overtaken requirements? This is a question asked by hundreds of people. It is generally known that prices of raw materials have fallen, yet when one comes to buy the finished product into which these raw materials have been converted, the price asked is practically the same as during the war. What is the reason? The answer may be largely expressed in one word: Waste.

It is universally recognized that the prevailing high freight rates operate directly to increase the price of all goods, but by increasing the price of the raw materials and secondly by still higher charges on the finished article. One of the chief factors responsible for high freight rates, is 'Waste.' Here are a few illustrations of this waste of which complaint is made:

Before the United States Government took over the railways of that country for operation during the war the comparatively simple job of changing a nozzle tip in the front end of a locomotive could be done by a machinist, or a machinist and helper, or even a handy man alone. Today under the present classification rules governing the labor unions, in order to change a nozzle tip it is necessary to call a boilermaker and his helper to open the door, because the boiler is too large to be moved by a machinist and his helper to remove the blower pipe, because that is the pipeman's work; and to call a machinist and his helper to remove the tip, because this is machinists' work; also for the same force to be employed for putting in the new tip.

Prior to Federal control of the railways in the United States it was not an uncommon practice for a machinist and his helper to take care of all of the work necessary on an electric headlight of a locomotive. Under the McAdoo Agreement the work is now so divided that to service the headlight among three crafts, namely, machinist, sheet metal workers and electricians. If each of the mechanics performing the work has a helper, this has the effect of six men performing a piece of work that could be and was formerly taken care of by two men.

Under present rules where arrivals of trains require the service of employees two hours in the morning and two hours in the evening, say 8 a.m. to 10 a.m. and 6 p.m. to 8 p.m., railroads now have to employ two shifts of eight hours each, or sixteen hours service where there is only four hours' actual work. Furthermore, where two shifts are worked the starting time must be between 7 and 8 a.m., and if the arrival of a train or other operating conditions require a man on duty at 6 a.m. he must be paid for five hours each day in addition to regular eight-hour day.

The following illustrates the method of paying a wrecking crew under the McAdoo Agreement when performing road service: A wrecking crew composed of six men leaves its home terminal at 8 a.m., goes a distance of 50 miles to clear up a wreck; work of clearing main track is completed at 6 p.m.; crew ties up for sleep and rest from 6 p.m. to 7 a.m. next morning (wrecking outfit is equipped with sleeping facilities); resume duty 7 a.m.; pick up refuse and arrive at home terminal 2 p.m. Under the National Agreement it is necessary to pay the entire crew continuously for the first 24 hours from the time they leave their home terminal, computed as follows:

From 8 a.m. to 12 noon, eight hours straight time; 4 p.m. to 12 midnight, eight hours; 12 midnight and one-half; or 12 hours; 12 midnight to 2 a.m., eight hours at double time; or 16 hours; 8 a.m. to 2 p.m., six hours at straight time. Total of 42 hours paid, although crew actually performed service from 12 noon to 6 p.m. first day, six hours, and from 7 a.m. to 10 a.m., second day, three hours. It will be noted actual time worked during the entire period was nine hours; balance of the time was consumed in waiting and travelling, and it will be further noted the crew was released entirely from 6 p.m. to 7 a.m., during which time they were paid at time and one-half and double time while actually off duty and sleeping.

Scores of other instances of a like character, all of which are substantiated by an exhaustive inquiry into the subject, could be given. The above however goes to show the enormous economic waste taking place daily in connection with railway work, which waste must be paid for, and is being paid for, by the people in excessive freight and passenger rates. These high rates are reflected again in the unduly high cost of goods of all kinds.

The truth of the matter is that in paying the excessively high rates which the railway companies find it necessary to charge, the people are paying, not for services rendered, but to cover vicious economic waste, paying men for work they do not do and for services which are not performed. The whole system is wrong, and is doing even greater injury to those who fancy they are profiting by it because it is encouraging shiftlessness and downright dishonesty which finds expression in accepting pay for work never performed.

Selling Shoes By Pound

French Government Doing It To Get Rid of Stock.

Selling boots by the pound may seem strange, but it is what the French Government is up against in the liquidation of the two largest French army camps. More than \$2,000,000 worth of the stoutest footgear is going begging because someone put over a lot of freak sizes which couldn't be worn.

The boots are made of the best leather, but as they would require cutting in order to use even the

soles or heels, the offers received were all too small, and it was decided to sell by weight.

As a vermicide an excellent preparation is Mother Graves' Worm Expeller. It has saved the lives of countless children.

The vibrations of sound caused by spoken words can now be recorded by means of a clever invention.

Near Bingen, in Germany, is a famous echo which will toss a sound to and fro no less than seventy times.

If coffee, which is known to contain caffeine, disturbs your health and comfort—drink

INSTANT POSTUM

"There's a Reason"

The British Way

Upholds Officials Who Speak For Nation Without Authorization.

Speaking of the reprimand administered to Rear-Admiral Sims by United States Secretary Denby for his denunciation of American ships' belaters and of utterances made by Admiral McGruder regarding the United States' attitude towards France, the New York Times points out, by way of contrast, that the British Government does not check up its officials when they presume to speak for the nation without direct authorization. The Tribune recalls that in Cuba a British consul who threw the British flag over Americans facing a firing squad was not reprimanded. Nor was Captain Chickster reprimanded in Manila Bay when he intervened between Admiral Dewey and the German squadron, virtually challenging Germany to war if an attack was made upon the American ships.

ADVICE FOR BACKACHE

When stooping hurts, when lifting and bending cause distress, take the time to rub in lots of 'Nervine.' Usually a couple of applications brings grateful relief. No liniment more soothing, more certain to kill muscular, rheumatic or sciatic pain. Thousands of homes rely on good Old Nervine for cramps, colic, dysentery, and external muscular pains. Large 35 cent bottles for sale everywhere.

Red, White and Blue Corn

Chicago Professor Produced Colored Kernels By Grafting.

After three years of experiment, Professor William L. Woodburn, of Northwestern University, has produced an ear of corn containing red, white and blue kernels, he announced. Professor Woodburn asserted his corn would be able to perfect his soon so that the rows of kernels would show solid bars of red, white and blue. The colored corn was produced by crossing red and white ears to make blue ears, according to Professor Woodburn, and then grafting the three varieties.

To Asthma Sufferers, Dr. J. D. Kellogg's Asthma Remedy comes like a helping hand to a sinking swimmer. It gives new life and hope by relieving his trouble—something he has come to believe impossible. Its benefit is too evident to be questioned—it is its own best argument—its own best advertisement. If you suffer from asthma get this time-tested remedy and find help like thousands of others.

If the whole of the watery vapor in the atmosphere were to fall at once in the form of rain it would not, according to experts, cover the entire surface of the earth to a depth of more than five inches.

CHOLERA INFANTUM

Cholera infantum is one of the fatal ailments of childhood. It is a trouble that comes on suddenly, especially during the summer months, and unless prompt action is taken the little one may soon be beyond aid. Baby's Own Tablets are an ideal medicine in warding off this trouble. They regulate the bowels and sweeten the stomach and thus prevent all that dread summer complaint. Concerning them Mrs. Fred Rose, of South Bay, Ont., says: "I feel Baby's Own Tablets saved the life of our baby when she had cholera infantum and I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Canadian Receives French Medal

Corporal Rescued Woman From Well Nineteen Feet Deep.

Corporal David Mills, London, a former member of the British Air Force, has been awarded a medal by the "Foundation Carnegie" of Paris, France. In 1918 when the English airmen were at Froido bombing the Rhine cities, Mills one night saw a number of excited people standing at a farm gate. He learned that a woman had fallen 19 feet into a well filled with water 30 feet deep. "Single handed he brought the woman to the surface though he had been told it meant death to go into the shaft and that she was doubtless dead before he had arrived."

Output of Zinc

The output of zinc from Canadian mines has more than quadrupled since 1916, according to the Mines Branch. The output in 1916 was 2,665 tons whilst by 1919 it had jumped to 11,005 tons.

For the first time on record there is an ice famine in Iceland, due to the mild winter and lack of manufacturing facilities.

In nearly one-half the gas plants in the country gas is manufactured from oil.

Pies You'll Like

BY LORETTO C. LYNCH

An Acknowledged Expert in All Matters Pertaining to Household Management.

Since pie is classed among the real joys of life, if we are going to make it at all we should make it so it will be easy to digest.

Pasty, soggy piecrust is very difficult of digestion. And even well-made bottom crust will often acquire sogginess by the soaking of the fresh fruit filling into it. For this reason such pie should be baked in a glass or earthenware dish, with an upper crust only.

The sweetened fruit should be put into the dish. Then a half-inch strip of pastry is placed over the rim of the pie plate. The strip is moistened and the crust placed over the top. The strip of pastry and the upper crust are pressed together, then the edges are trimmed. The upper crust should be gashed in several places to allow for the escape of steam.

A simple and satisfactory crust is made by sifting together one and one-fourth measuring cups of flour with one level teaspoon of baking powder and one-fourth teaspoon of salt. Cut in from two to four ounces of fat. Two level tablespoons of butter or lard weigh about one ounce. Add just enough icewater to hold the ingredients together. Chill. Roll out.

A piecrust should be handled just as little as possible. The top crust of a pie should be rubbed over with milk or oil mixed with yolk of egg. Here are some recipes readers have been asking for:

Lemon Pie.

One-half cup flour, 1 cup sugar, 2 cups boiling water, juice and rind of one lemon, 1 tablespoonful of butter, 2 egg yolks, 3/4 teaspoonful salt.

Meringue.

Two egg whites, 2 tablespoonfuls powdered sugar.

Mix the sugar and flour together, add the boiling water and cook on the back of the range or over an asbestos mat for fifteen minutes. Add the other ingredients of the filling and cook at a simmering temperature until the egg yolks thicken. Cool and place in hot crust only. Cover with the meringue made by whipping the egg whites until stiff and then gradually beating in the sugar. Return to the oven a few moments until the meringue is a light brown. Meringue burns easily.

Rhubarb Pie.

Two cups of rhubarb cut into small pieces, 1 egg, 1 cup sugar, 4 tablespoonfuls flour, pinch of salt, lemon rind.

Mix sugar, salt, lemon rind and flour together; beat the egg. Add the rhubarb and flour mixture to the egg. Beat with hot crust only. Preferably in individual pie dishes.

To all fresh berry pies, it is well to mix 3 to 4 level tablespoonfuls of flour with the sugar. This thickens the juice. If berry pie is baked in two crusts, paper discs inserted in the incisions allow the steam to escape readily and prevent the juice from running out.

The juice of a can of fruit may be thickened with cornstarch or flour and the whole turned into a baked crust. The top is then spread with a meringue and browned. A busy housekeeper might have several empty crusts on hand to use with her fruit at a moment's notice. Crusts are baked on the outside of the inverted pie plate. Small tart shells may be baked on the outside of an inverted muffin or gem pan.

Will Attempt

Trans-Pacific Flight

Lieut. P. J. Parer Announces Plan at Sydney, N.S.W.

An aeroplane flight across the Pacific Ocean is to be attempted soon, it was announced recently by an Australian aviator, Lieut. P. J. Parer, who some time ago flew from England to Sydney.

To raise fifteen thousand pounds to finance the trans-Pacific attempt, Lieut. Parer has started on an exhibition flight around Australia. It will be possible to follow a chain of islands from Australia two-thirds of the way across, but on the Canadian side of the ocean there will be a long stretch in which there is no land.

Lucky He Took Wife's Advice At Time He Did, Says This Regina Man

"I was going down hill pretty fast when I began taking Tanlac, but I can say for this medicine that it turned me right round and put me back on the road to health," said William Lorenz, 2154 McKay St., Regina.

"I suffered a great deal more from the after-effects of influenza than I did from the disease itself, as it left me in a run-down condition. My stomach was upset and I had a sick and depressed feeling most of the time. Nothing I ate agreed with me. My kidneys bothered me considerably and my back ached so that I could not bend over and straighten up again without suffering agony."

"It was a lucky day for me when my wife persuaded me to take Tanlac. It changed me all around in a

surprisingly short time. It gave me an appetite and put my stomach in perfect condition so that nothing I eat disagreed with me. My kidneys do not bother me any more and my back is entirely free from pain. I gained fifteen pounds in weight, too, while taking Tanlac and just feel like a different person."

"Seeing what Tanlac did for me, dozens of our friends are taking it and they are just as enthusiastic as my wife and I are. We intend always to keep a bottle in the house so that if any of the family need building up we can give it to them at once."

"I feel that it is nothing but my duty to tell others about this medicine which does so much good. Tanlac is sold by leading druggists everywhere."

C.P.R. Programme for the West.

The main portion of the construction programme of the C.P.R. in the west this summer is being confined to the Acme-Drumheller line, a portion of the Weyburn-Lethbridge line, it was stated by D. C. Coleman, western vice-president of the company, on his return from an inspection trip. He hopes to see the conclusion of work on the Acme-Drumheller line by the fall, and by that time he expects to see completed 18 miles more of the Weyburn-Lethbridge line, west of Altawana.

Wonderful powers of memorizing facts are possessed by a Yorkshire shoemaker who has mentally stored away 31,000 items of general information.

Some seventy periodicals printed in Esperanto, the so-called universal language, are now published.

Prehistoric Monster

Found At The Pas

Discovery Regarded as of Great Importance to Science.

A discovery of the fossilized remains of a prehistoric monster in the foothills of the Pasquill Hills near The Pas, is reported by Dr. Ellis, of the Dominion Geological Department. He found the bones disconnected but in alignment, measuring 42 feet in length. He is not prepared to state what class of animal the remains belong to, but regards the discovery of great importance to science. The doctor brought in 80 pounds of bones for shipment to Ottawa.

Something more than a century ago paper was, so dear in England that butchers used to give their customers the meat wrapped up in a large vegetable leaf.

The Endurance of Your Automobile, Truck, or Tractor

Depends not only upon the time of Lubrication, but the kind of Lubrication.

WHITMORE'S AUTO GEAR PROTECTIVE COMPOSITION

Adds 500% to Gear Life. Thousands of tests have been conducted by Lubricating experts to demonstrate the relative efficiency of various lubricants. The results of these tests conducted over years, has fixed the choice of sixteen best manufacturers.

The largest builder of fine cars in the world; The largest builder of trucks in the world; The largest builder of taxis in the world; The largest builder of worn gears in the world.

Many lubricants contain acid. They not only fail to counteract friction, but are themselves harmful and corrosive to gear and bearing surfaces.

Whitmore's Auto Gear Compositions Contain No Acids

In the Panama Canal Emergency Dams, six million pounds rest on an unbroken film of WHITMORE'S. After an exhaustive test the U.S. Army contracted for its exclusive use. Manufactured by The Whitmore Manufacturing Co., Lubricating Engineers, Cleveland, Ohio.

CANADIAN NATIONAL RAILWAYS

Memorable Meeting Of Lloyd George And The Irish Republican Leader

London.—Mr. Lloyd George and Eamon de Valera, Irish republican leader, met in the Prime Minister's official residence in Downing Street and spent more than two hours and a half making clear to each other the circumstances under which they thought Great Britain and the Daily Freeman might be willing to seat delegates at a conference table with representatives of Ulster, in an effort to compose the age-long differences between the three parties, and settle the Irish question.

What many English people not long since would have considered impossible has happened—this meeting of the British Premier and the man whose supporters designate him "president of the Irish republic."

The extreme length of the private conversation and the fact that it is said to have ended "amicably" and that an agreement was arrived at to issue a joint communiqué is interpreted as a good augury. That the prayers of both people for the success of the conference were fervent was shown by the kneeling Irish men in Downing Street reciting the Rosary and singing hymns, while the Archbishop of Canterbury presiding at a meeting of the national assembly of the Church of England, reminded the gathering that the conference was meeting and invited all present to stand for a few minutes in silent prayer.

This initial talk between the two leaders, the preliminary nature of which was emphasized by both sides, had at least one earmark in common to innumerable gatherings of statesmen in recent years, for at its conclusion, the only word vouchsafed the public was a cryptic joint communiqué, containing the bare announcement that there had been a free exchange of views in which their relative positions were defined.

From both sides, however, it is gleaned that the long conversation was marked by the utmost cordiality, not in the least marred by the candor with which the two viewpoints were presented and left the participants satisfied and able to assure their colleagues that there were substantial grounds for hope of an ultimate settlement.

Because of Mr. De Valera's accessibility to the all-Ireland for commitments made in behalf of Southern Ireland, it is learned he was unable to give unqualified replies to some of the Prime Minister's propositions. But both were keen to scent danger when the talk bordered on issues regarded as irreconcilable and there was consequently no time when a rupture was imminent.

Big Gold Strike in Alaska

Mining Men At Anchorage Enthusiastic Over Discovery

Anchorage, Alaska.—Strikes of gold quartz apparently bearing more than one hundred dollars to the ton in a district 39 miles south of here, are reported. Prospectors are stampeding to the area of the discovery.

Men returning from there say a dozen big fissures of quartz, heavy in gold, have been uncovered within a region of twelve by seven miles. The first strike was at Girdwood, on the government railroad.

According to messages received here the original find was followed by numerous others of equal importance. Mining men here who have made a preliminary investigation of the discovery predict it will prove prolific. Some of the strikes, they say, developed in railroad cuts along Turnagain Arm.

Japan Accepts Invitation

Washington.—Japan's acceptance of President Harding's suggestion that a conference be held to discuss the question of armaments was received at the state department, but made no reference to the question of a discussion of the Far Eastern question.

Unqualified acceptance by the Chinese Government also was received. State department officials would make no comment on the form of the Japanese reply, the text of which was not made public.

For Revival of Trade

Toronto.—The Globe states it learns unofficially that the Dutch Government contemplates the appointment of a special commission to look into the industrial and commercial conditions in Ontario with a view to evolving plans for a general revival. The commission will probably hold representative of boards of trade, Ontario manufacturers and farmers.

Hail Swept Areas

Heavy Damage Reported In South Alberta and Saskatchewan.

Lethbridge.—Later reports of the hailstorm which struck Southern Alberta last week indicate that it was much wider in extent than first reports showed. The storm gathered in the foothills west of Claresholm, Nobleford, Coalville and Chin districts, swinging south through Skiff, on the Lethbridge-Weyburn branch of the C.P.R.

The storm varied in width from one to three miles and the loss of the crop in its path was nearly complete. The length of the storm path was approximately a hundred miles.

All crops but two on the C.P.R. and the Van Horn soldier colony, north of Coalville in the irrigated belt, were wiped out. Chickens were killed by the force of the storm in some districts.

Damage from hail in an extensive area is found to have resulted from the recent storm in Southern Saskatchewan. The area hailed is said to extend intermittently from Shaunavon to Weyburn. The district seven miles south from Assiniboia and south of Limerick is said to be most seriously affected. Sixty thousand dollars in insurance claims is reported filed in Limerick.

Several areas are said not to have been insured. The extent of the damage is as much as seventy to eighty per cent. in places.

Japan's Chief Concern

Wonders If She Can Hold Her Own If Isolated.

San Francisco.—The Anglo-Japanese alliance has been revised twice since its conclusion in 1902, but the fundamental spirit underlying the pact has never changed, says a statement issued in Tokyo by the Kokuminto political party and published in the Yomiuri, copies of which were received here recently.

"The question that claims the serious consideration of the Japanese at this moment is not whether Japan will be isolated when the alliance is dropped, but whether Japan has any confidence in her capacity to hold her own in the future, even if she should find herself temporarily in an isolated condition."

U. S. Veterans To

Join Canadians

Necessary Steps Now Being Taken For Affiliation.

Ottawa.—Officers of the Dominion command, Great War Veterans' Association, have been notified of the passing of a resolution by the national council of the British Great War Veterans of America to provide for affiliation with the G.W.V.A. of Canada, and the necessary steps are now being taken by the national headquarters of the two organizations.

The American organization includes a great number of men who fought with the Canadians overseas and the affiliation now under way will provide a means whereby members of the Canadian association domiciled in the United States can continue their membership.

Ontario Grapes

Will Surpass Italy's

Crop In Niagara District Is Exceptionally Fine.

Hamilton, Ont.—Grapes that are expected to even excel the superior product of the vineyards of Southern Italy will be picked in the Niagara district about the last week of August, stated Thomas J. Mahoney, general manager of the Niagara Peninsula Growers' Limited.

While the extremely warm weather has played havoc with the berry and other early fruit crops, the Niagara said the strong sun, coupled with the generous rain, was most helpful for peaches and grapes.

Will Not Oppose Prohibition.

Toronto.—A resolution introduced by Franklin E. Carlson, Mr. Philadelphus, that opposition to the prohibition legislation of Canada and the United States be expressed by the Theatrical Mutual Association was rejected by that body in session here.

WESTERN EDITORS

L. D. Nesbitt, Publisher of the Mail, Bassano, Alta.

B. C. Lumber Mill

Destroyed By Fire

Costly Blaze at Gilroy-McKay Plant, Port Alberni.

Port Alberni, B.C.—Fire completely destroyed the Gilroy-McKay lumber mill with a loss in plant alone estimated at \$75,000. A million and a half feet of lumber was lost.

The Canadian Voyager was berthed at the mill loading 550,000 feet of lumber for Quebec points. Both cargo and vessel were saved. Some cars of lumber caught fire and sustained heavy damage. One house caught fire but was saved. The cause of the fire is unknown. Owing to a brisk wind it spread rapidly. Fire fighters from both Port Alberni and Alberni were quickly on the scene but could do little to check the spread of the flames and most of the time was occupied in protecting nearby residences.

Great Britain Leads

In Shipbuilding

Doing Nearly 60 Per Cent. of World's Ship Construction.

New York.—The United Kingdom has 2,813,000 tons more shipping under construction than the United States. Nearly sixty per cent. of the world's shipbuilding is being done by British yards.

According to Lloyd's Register of shipping, during the quarter ended June 30, world ship construction showed a decrease of approximately 900,000 tons from that of the first quarter, and the latter figures were less than 100,000 tons below those of the preceding three months.

During the three months ended June 30, United States shipping under construction dropped nearly 400,000 tons, British about 270,000 tons, and the other countries combined, with the exception of Germany, for which complete returns are not available, about 250,000 tons.

The New Agriculture

Outlines Vision of New Future For Agriculture in the West.

Saskatoon.—The agricultural societies convention at the University of Saskatchewan was completed this afternoon when Prof. W. J. Rutherford, dean of the College of Agriculture, addressed the gathering on "The New Agriculture," and Prof. A. M. Shaw gave an address on "Livestock—its place in Saskatchewan agriculture."

The Dean outlined the vision of the new agriculture which was gradually coming into existence in the west. The new agriculture would be profitable, productive, comfortable, beautiful and educational. The boys would not want to leave the farms then, he declared.

It pays to patronize home industry. Buy from the merchants in your own town.

Was In Strange Company

London.—Premier Meighen found himself in somewhat strange company at the Eighty Club. Right Hon. H. H. Asquith sat at his left and proposed his health, while all around him were the leading lights of anti-Lloyd George Liberalism. Mr. Asquith, in his address, ventured far into British controversial politics, introducing the Irish question, the disarmament conference and the conference of Empire Prime Ministers, but Premier Meighen, who followed and who received an almost tumultuous welcome, avoided going beyond the border of non-partisan politics.

Long Distance Wireless Record

Vancouver.—The Merchants Exchange wireless here has picked up a message from the Canadian-Australian liner, Makura, which, it is stated, created a long distance record for the Pacific. The exchange wireless heard the liner giving her position, the vessel being about one day out of Auckland, New Zealand, en route to this port. The distance is more than 6,000 miles.

Trial Of German War Criminals

Thought Hospital Ships Were Dangerous To Submarines.

Leipzig, Germany.—At the continuation of the trial in the Supreme Court here of the two German submarine lieutenants, Ludwig Dittmar and Johann Boldt, charged with murder, the first degree for firing on lifeboats after the Canadian hospital ship, Llandovery Castle, had been torpedoed in the summer of 1918, Petty Officer Popitz, of the submarine which sank the ship, said the Germans always suspected hospital ships, which they considered a danger to submarines.

Popitz declared he and Lieut. Dittmar tried to persuade Commander Pathiz of the submarine, not to attack the hospital ship, but the submarine dived, fired two torpedoes and then came to the surface.

The witness testified he saw three or four lifeboats out and several men swimming; then the crew of the submarine was ordered below deck. The general feeling prevailed that something unfortunate had occurred, Popitz declared. Later he heard firing and assumed the lifeboats were being fired on.

A naval expert, representing the German War Office, admitted there was no proof of any abuse of a hospital ship's status on the part of the Llandovery Castle.

The Llandovery Castle was bound from Halifax to an English port when she was torpedoed on the night of June 27, 1918, off Fastnet. Out of 258 persons on board, only 24 were saved.

Britain Cancels

Building Subsidies

Plan to Encourage House Building Produced 300,000 Dwellings.

London.—The British Government has decided the granting of subsidies to encourage house building, a policy entered into since the war in an endeavor to overcome the housing shortage. "It is estimated that the government scheme has produced 200,000 dwellings and entitled liabilities of ten million pounds annually. To this heavy indebtedness on account of current rent, a large capital loss will have to be added, when, at the expiration of the seven years, the properties will be revalued for transfer to the local authorities."

Forest Fires Revive

Fire Fighters In Maritime Provinces Again Called Out.

St. John, N.B.—Strong westerly winds springing up, revived the forest fires at Westfield on the St. John River, and they were again sweeping toward the summer cottages at Hillandale.

Grand Bay is again covered with smoke, and it is impossible to see more than fifty yards. Fire fighters, who thought the danger had passed, and had been relieved from their work, were again called out to give battle to the blaze in the district.

Kidnapped Earl Is Liberated

Sinn Feiners Brought Earl of Bandon Back Uninjured.

Cork.—The Earl of Bandon, who was kidnapped on the morning of June 21, was brought back to Bantry by his captors. The aged earl, for whose safety there had been some concern at various times, was uninjured.

Invite Prince to Visit Japan.

London.—The Prince of Wales has received an official invitation from the Japanese Government to visit Japan at the conclusion of his tour of India, which, according to recent announcement is to begin about the end of October.

W. N. U. 1377

Early Days In The Hudson's Bay Service

By O-G-MAS-ES (Little Clerk).

(Copyrighted)

It was early summer of 1878 and rather in my disgust I was left at Cumberland House (the headquarters for the H. B. Co. in that district), waiting for a passage to Grand Rapids. Every available able-bodied man had been engaged by the company, either for the arduous trip to Long Portage, with outfits for the Mackenzie River district, or else on the river steamers.

A missionary's wife with three little girls had just come in from the north en route for the Red River; a poor Scotchman with a bee in his bonnet had been sent in from an outpost with a long report showing that the isolation had been too much for him, and though not dangerous he was considered a sort of mild lunatic.

It was decided to send him in to Fort Garry for medical examination. All of these people made extra mouths to feed, and the Chief Factor suggested that I take them down to Grand Rapids by York Boat and there connect with the steamer Colville on Lake Winnipeg.

I was quite agreeable to this, providing some sort of crew could be found, and after a good deal of enquiry, old Antoine Moran turned up, having come in by the Brochet boats. This French half-breed had been poisoned some years before by the Indians and the effect still showed every summer in the peeling off the skin off his face and hands, the latter being so tender he could only do light work, and that with gloves. However, I was glad to get him as he was an excellent steersman and knew the river. Then there was a young imp of an Indian lad named Kitchemok-mok-mok (Big Knife) a devil for mischief, and the bourgeois was only too glad to get rid of him. This was all my crew, but of course we had the current of the river in our favor, for we could not possibly stem it. This was truly a motley crew and I shuddered to think what would become of us all if we happened to take the wrong channel, as we simply had no power to return. It took eight good men to pull a York boat up-current on the Saskatchewan. As usual the issue of provisions for our trip was scanty enough, therefore I smuggled in an old fish net in case of being storm-bound, as there was thirty miles of Cedar Lake to cross, and straight fish diet was a long way better than nothing.

Having been on the Lower Saskatchewan for some years I was well equipped against mosquitoes, and such mosquitoes!—quite beyond the imagination of any one who has not been there. The whole country for many miles is inundated in the spring, and as this recedes it is followed by a tremendous growth of rank grass, an ideal breeding ground for the plague. Once on a muggy, close evening, attempting to land with eight Indians from a York boat, the very weight and density of the mosquitoes drove us back into the boat; then, each taking a blanket and forcibly beating the swarms with them we managed to get the kettle boiled, but were only too glad to retreat to the middle of the river to eat in comparative peace. No

one thinks of travelling in the summer months without a mosquito bar for each traveller and these hung inside a good tent makes living possible.

The reader can imagine my horror to find that Mrs. Missionary had no mosquito bar, having come from a rocky part of the country. Well, I could not see a woman and three little ones eaten alive, so I and the boy set a tent and bar up in the stern sheets and our first-class passengers had a good night of it, while us poor bachelors slept in two large smudges made in iron pitch kettles slung but a little or not at all and were only too thankful to see daylight come.

Our only hope of making connection with the lake steamer was to drift with the current day and night, so as Captain of the craft I had placed Antoine on night duty, I and the lad taking the sweep in the daytime.

After another night of torment we were getting close to Chena-wa-win at the west end of Cedar Lake. The Saskatchewan River here divided into several channels, these often changing with different seasons and as night was approaching we had either to tie up and wait for daylight or take extra precautions to keep the right channel.

There was fortunately a breeze which kept the flies away and we were nearly dead for want of sleep, so warning Antoine to keep a bright look-out we were sound asleep in two minutes. I was the first to awaken, it being broad daylight and to my horror found we were out in a strange lake some distance from shore with no sign either of the Saskatchewan River or Cedar Lake. Calling all hands and reprimanding Antoine sharply for neglect of duty, which, indeed, might have very serious consequences, we held a council, that in the old man, boy and myself, right up in the bow, so as not to alarm our lady passengers. One thing certain we were going back, and it was no use waiting for help, as no one might see us all summer. There was only one course to go on. Then, in spite of Antoine's remonstrances, we hoisted the sail, there being a light breeze in our favor, and sailed on into the unknown. Our comfort was that we were out of the dreadful marshes.

There was a strong mainland to our right, no land visible to the westward and no direct wind, the most beautiful morning, so I went aft and teased the little girls who were quite happy with the change from the river. We landed in a pretty bay for dinner and the family enjoyed a good wash. By this time the wind was freshening so away we went again, making famous time, the ladies quite unaware that we were off our course. "After an hour or so of brisk sailing a narrow opened to the eastward and old Antoine crowded with delight, exclaiming, "There is Cedar Lake!" And sure enough it was. However our troubles were not yet over by any means as we would come out in the lake fairly close to the base of Rabbit Point, which nearly closes the east end of Cedar Lake, the route being along the east shore.

(To be continued)

Anti-British Film

Will Be Produced

To Be Exhibited By Author Who Served Prison Term.

New York.—Robert Goldstein, who in 1917 was sentenced to ten years imprisonment for violation of the Espionage Act in connection with the authorship and production of a 13-reel film known as "The spirit of '76," a work of propaganda to arouse anti-

mosty in the United States against the British Government, has had a sentence commuted and been released after serving three years. He announced that he intends to exhibit the film and has hired a hall in this city.

Vancouver—Merchant days in China. Vancouver.—Sam Kee, wealthy Vancouver merchant and property owner, aged 64, while on a business visit to China, died after an illness of several months.

Importance Of The Conference On Limitation Of Armaments

Meeting at Washington Will Be Attended by Many of the World's Prominent Statesmen.

London.—Indications in semi-official circles are that an international conference giving every promise of developing into one of the most important in the history of the world is in store for the immediate future.

Great Britain, France and Italy have thus far officially signified their willingness to accept invitations of President Harding to a conference on limitations of armaments, while China has indicated her readiness to participate in a conference relative to Eastern affairs.

In government circles it appears to be the consensus of opinion that the meeting at Washington will be attended by some of the most prominent

statesmen of the world. The announcement of President Harding of France, that he would consider going to Washington, followed indications that Prime Minister Lloyd George might also go, provided conditions in Great Britain are such as to permit his extended absence from the country. It is probable, however, that some of the leading figures in British official life will be present. Among those mentioned as delegates are: Rt. Hon. A. J. Balfour, Lord President of the Council, the League of Nations Lord Lord of Parnham, First Lord of the Admiralty, Sir Laming Worthington-Evans, Secretary for War; Admiral Lord Beatty and Viscount Grey.

Of Local Interest

And our idea of "clean sport" is swimming.

A. H. Clarke and R. B. Bennett are spoken of for the attorney-generalship.

H. W. Wood, president of the United Farmers of Alberta, is mentioned as the next premier.

A hard times dance will be held in the Oddfellows' hall at Bellevue on the night of Friday, August 5th.

A number of local Welches are arranging for a pow-wow for the reception of Lloyd George at Lee Lake shortly.

Fercival Baker, elected to the legislature at Ponoka on Monday, died in the Edmonton hospital on Tuesday night.

Perrin Baker, brother of Dr. A. H. Baker, formerly of Frank and Blairmore, has been returned by the farmers at Medicine Hat.

As a result of Monday's provincial elections, 39 farmers candidates, 14 Liberals, four labor and four independent were returned.

Mrs. J. W. Verge, of Calgary, and Miss Jean Patterson are visiting with their parents in West Blairmore, Mr. and Mrs. Peter Patterson.

'Tis a pleasure to go camping after a bunch of modern-dressed ladies have been having a picnic. The mosquitoes don't bother any more.

W. E. Henderson spent the week down in Seattle on business.

Two freight trains, travelling slowly met in a head-on collision near Millerton station last evening. Only minor damages resulted.

600,000 tons of United States coal have been contracted for to be shipped to points in the United Kingdom, and seventy-five vessels have been chartered to convey it across.

Victor Dorigo, famous Italian piano-accompanist, is visiting old friends in Blairmore and other Pass points. Prof. Dorigo has just completed engagements with some of the largest Canadian and American theatres.

A report in the Calgary Herald credits Billy Mulholland with pitching two no-hit no-run games this season. Billy Mulholland has so far this season pitched four such games, having made two of them, one at Macleod and one at Michel, during the past two weeks. Billy pitched a no-hit no-run game for Blairmore against Michel on Sunday evening last.

The Thael and Risk Clothing house, of Lethbridge, are opening here on August 1st. The new store will be under the management of H. E. McFarland, now manager of the Thael stores in Lethbridge. Mr. McFarland's experience in the clothing and furnishings gives us the assurance that the store here will be one that Blairmore people can be justly proud of. The lines of clothing carried will be the most up to date and if it's new in furnishings you can always get it at the Thael and Risk Clothing house.

Shorty Williams, mayor of Morisy, was in town this week the guest of Jim Turnbull.

Fernie played football at Bellevue on Saturday, suffering defeat to the tune of 3 to 0. The game was in charge of Referee Watson, of Maple Leaf.

"Kid" Mulholland pitched a no-hit game of baseball for Blairmore at Michel grounds on Sunday last, the score ending with 5 to 0 in Blairmore's favor.

Perrin Baker, the new farmer member for Medicine Hat, is likely to be the next provincial minister of education, succeeding Hon. George P. Smith, defeated.

Major H. P. Burrell, M.C., police magistrate of Lethbridge, has tendered his resignation to become chief engineer of a large manufacturing plant in New York.

Mr. and Mrs. McAdam and Miss B. McAdam, motored up from Pincher Creek on Monday last. Mr. and Mrs. McAdam are spending a few days with friends in Bellevue.

The pressure caused by various large quantities of liquids being spilled in the vicinity of the town reservoir on Sunday last caused a large hydrant in the centre of the town to burst.

Just a few days before election day we were told by Mr. Ades that the C.P.R. were to bring soil in from Cowley for the grading of our municipal park. The reason for the importation of Cowley soil was that an election was near, Hatfield not far away, and the Cowley dope with a little moisture was ideal for mud-slinging.

S. Trono has purchased a new Master-Six McLaughlin.

Hatfield is having the time of his life nowadays "letting alone".

Charlie Bayre has returned to the Crystal Dairy from a visit to his wife and family at Truro, Nova Scotia.

Part of the big henhouse in West Blairmore may be occupied by the teaching staff.

Just one look at the bathing suits and you can't wonder why the waves run wild.

We have just been trying to figure out if all fishermen are liars or if all liars fish.

The saddest words of tongue or pen: "chickens attracting men again!"

Col. J. S. Stewart, independent Conservative, was returned at Lethbridge by a majority of near a thousand.

Rev. W. T. Young is this week attending the "boys' camp" at Lee Lake. We understand that about two hundred boys are in camp there.

The One Big Union talked most of nowadays consists of Methodists, Presbyterians and Congregationalists.

The age of miracles is not over by any means. A Portland woman was charged with defrauding a lawyer out of \$5,000.

When a girl looks at though she had fallen face down in a flour barrel, it is not safe to conclude that she had been helping mother with the baking.

A. M. Morrison disposed of several large McLaughlin cars in Blairmore on Wednesday, the sales representing in the neighborhood of eight thousand dollars.

The tennis court back of the Central Union church is now in fine shape and is working overtime with such a large number of enthusiasts that present themselves to have a game.

The proprietors of one of Coleman's cafes, The Palm, have purchased the stock and fixtures of G. R. Catton's store here. We understand that the place is to be re-arranged and renovated, to be run as a cafe.

Miss Violet Richey, who for the past year or so has been employed in the district central office of P. Burns and Co. here as a ledger keeper, left on Tuesday morning last, accompanied by her mother, for their old home in the State of Indiana. Miss Richey is succeeded here by Miss Eileen Picard, formerly of the Union Bank staff.

It is unlikely that the new Canadian 5-cent piece, authorization for which was given at the last session of parliament, will be issued much before the new year. At the branch of the royal mint in Ottawa it was stated that the dies for the new coin are being made in England and may not reach Canada for some time. The new coin is identical in size with the United States nickel but will contain a larger percentage of nickel.

One of the best jokes heard on the local election campaign reached us too late for our last issue. An Italian citizen in the Pelletier addition had heard that Pick's truck was making the rounds of the town delivering beer to possible supporters of A. M. Morrison. He conceived the idea of placing an empty beer keg labelled "Vote for Morrison" outside his gate. The truckman passing that way decided that this banner bearer had been emptied and that the occupant of the premises was a Morristone and dumped a full keg in over the fence. The neighbors were invited shortly afterwards and after demolishing the liquid all voted for Christophers.

COWLEY MUSIC PUPILS PASS

The examination held in Cowley on June 25th, by the Canadian Academy of Music and Toronto College of Music, was attended by three Lethbridge children, pupils of Mrs. B. O. Morrow, of Cowley. The report of the examination just received is: Rhona M. Grove, piano primary, passed with honors. Violin, preparatory, passed with honors.

Violet F. Penn, piano, elementary, passed with honors. Florence A. Penn, piano, elementary, passed with honors.

DONT DO IT!

Ladies! Skip this paragraph! It is really unfit for publication and got into our mail by mistake, so we asked Mr. Huffman to destroy it or set it inside out:
